

Amr Elshabrawy

Freelance React & Next.js Developer — Websites, Online Stores & Web Apps

6th of October, Giza, Egypt · Remote +20 120 254 6653 amrelshabrawy.dev@gmail.com
amrelshabrawydev.github.io linkedin.com/in/amr-elshabrawy-dev github.com/AmrElshabrawyDev

SUMMARY

Freelance React & Next.js developer building fast, SEO-ready websites, online stores and full-stack web apps for clients in Egypt, the Gulf and worldwide. I ship production work end to end — Next.js App Router, TypeScript, Prisma/PostgreSQL, payments (Stripe, PayPal, Paddle) and Arabic RTL — and fix the hard bugs in live platforms. **5.0★ rating on Khamsat** across 7 client reviews with a 100% completion rate.

SKILLS

Frameworks & languages	Next.js (App Router, Server Components, SSR/SSG), React 19, TypeScript, JavaScript (ES6+), HTML5
E-commerce	Custom Next.js storefronts, Salla (Twilight · Raed themes), Zid, Shopify, WordPress, WooCommerce
Back end & data	Prisma, PostgreSQL, Supabase, REST APIs, Redux, Zod, React Hook Form, Formik
Payments & services	Stripe, PayPal, Paddle, Resend, Google Gemini API, Cloudflare
UI & motion	Tailwind CSS, Material UI, Bootstrap, Framer Motion, GSAP, three.js, RTL layouts
Performance & SEO	Core Web Vitals, Lighthouse/PageSpeed, technical & local SEO, structured data, accessibility
Workflow	Git & GitHub, Vercel, GitHub Pages, Figma to code, Chrome DevTools, VS Code

EXPERIENCE

Freelance React & Next.js Developer Self-employed · Khamsat and direct clients · Remote	Apr 2022 – Present
- Deliver business websites, online stores, dashboards and WordPress-to-Next.js migrations from proposal to launch and support. - Build full-stack features — auth and permissions, server-verified payments, digital delivery, transactional email and admin panels. - Fix production issues in live platforms: payments on the edge, SSR/hydration errors, security headers and technical SEO. - Tune speed and SEO with real PageSpeed results — e.g. 100 desktop on a client lead-generation site.	

SELECTED CLIENT WORK

ToNextStep — Digital Products Marketplace Full-stack marketplace for digital assets: catalog with search and filters, cart, checkout, licenses, instant secure downloads and an admin panel. Server-verified Paddle payments, Resend emails, Zod-validated forms and de-duplicated analytics. PageSpeed 94 desktop. Next.js 16 · React 19 · TypeScript · Prisma · PostgreSQL · Supabase · Paddle · Resend	Jul – Aug 2026
AI-Amal Furniture Moving (Kuwait) — Lead-generation website Rebuilt a crashed WordPress site in Arabic while keeping its ranking URLs; added a multi-rule price calculator, lead forms with email notifications, local SEO with structured data and a custom admin panel for articles. PageSpeed 100 desktop. Next.js 16 · TypeScript · Tailwind CSS v4 · Supabase · Resend	Jun – Aug 2026

Kosovo Travels — Travel & booking platform stabilization

Made Stripe and PayPal payment sessions reliable on the Cloudflare Edge runtime, fixed SSR/hydration errors without breaking the booking flow, unified a responsive carousel, and added HSTS, canonical URLs and SEO fixes. PageSpeed 97 desktop.

Next.js 16 · React 19 · TypeScript · Stripe · PayPal · Cloudflare

2026

Luxellia Parfums — Salla store theme customization

Luxury Arabic (RTL) look on Salla's Raed theme with an interactive preview for client approval, Node.js catalog tooling for Salla Merchant API payloads, and QA, install and rollback guides.

Salla Twilight · Raed theme · JavaScript · Node.js
